2024

Summary

Bosnia and Herzegovina regularly reports hate crime data to ODIHR via the Ministry of Interior. There is no formal system for recording and collecting hate crime data in the country. In co-operation with ODIHR and the OSCE Mission to Bosnia and Herzegovina, the authorities of Republika Srpska have worked to improve hate crime recording and data collection through ODIHR's Information Against Hate Crimes Toolkit (INFAHCT) programme, including through a diagnostic workshop held in April 2022. Bosnia and Herzegovina has also co-operated with ODIHR and the OSCE Mission to train law enforcement officers and criminal justice professionals on hate crimes.

Bosnia and Herzegovina has launched a Gender Action Plan for 2023-2027, which includes hate crime prevention activities as part of its strategic implementation.

ODIHR's Key Observation

ODIHR recognizes Bosnia and Herzegovina's efforts to report hate crime information and statistics to ODIHR. However, based on the available information, ODIHR observes that the country's mechanisms for recording hate crime data and statistics do not sufficiently distinguish hate crimes from other crimes, while the number of officially recorded hate crimes is low. In addition, ODIHR observes that Bosnia and Herzegovina would benefit from raising awareness among and building the capacity of criminal justice officials, in particular prosecutors and judges, to address hate crimes.

Official Data

Data on recorded, prosecuted and sentenced cases include cases that fall outside the OSCE definition of a hate crime, but which could not be disaggregated from the total number.

Year	Hate crimes recorded by police	Prosecuted	Sentenced
2024	53	11	8

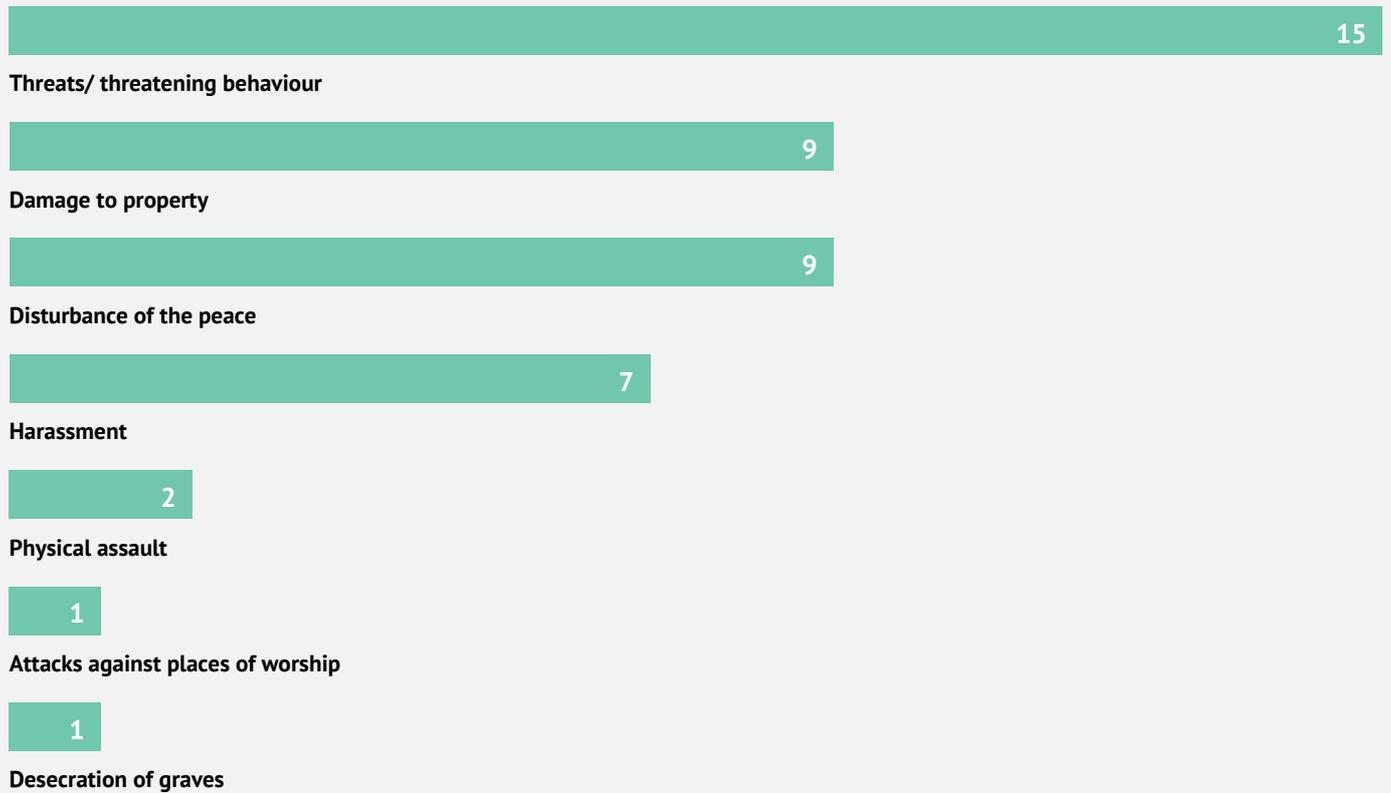

Police data by bias motivation

The data below include cases that fall outside the OSCE definition of a hate crime, but which could not be disaggregated from the total number.

	21
Anti-Christian	
	21
Anti-Muslim	
1	
Other hate crime based on religion or belief	
1	
Racist and xenophobic	

Police data by type of crime

The data below include cases that fall outside the OSCE definition of a hate crime, but which could not be disaggregated from the total number.

National Developments

In 2024, the Assembly of the Brčko District of Bosnia and Herzegovina adopted the Law on Amendments to the Criminal Code of the Brčko District of Bosnia and Herzegovina, which prescribes the new criminal offence of "Public Provocation and Incitement of Violence and Hatred" (Article 355a of the Criminal Code of the Brčko District of Bosnia and Herzegovina).

From 2022 to 2024, representatives of the Republika Srpska Ministry of Internal Affairs actively participated in preparing a report together with ODIHR, which included recommendations on understanding and improving the recording of criminal acts committed out of hatred in Republika Srpska. This co-operation concluded in March 2024. The report highlighted varying levels of development in the information systems used to record and report hate crimes, which has hindered the country's ability to adequately report and present the actual situation concerning hate-related incidents.

Police officers of the Republika Srpska Ministry of Internal Affairs participate in training events organized by international partners. In 2024, four hate crime trainings organized by the OSCE were held, during which over 20 police officers were trained.

Additionally, Bosnian authorities implement a project on "Promotion of Diversity and Equality in Bosnia and Herzegovina" in cooperation with the Council of Europe and within the framework of the joint programme on "Horizontal facility for the Western Balkans and Turkey II", financed by the EU and the Council of Europe. As part this project, the authorities are developing an "Action plan for the equality of LGBTI persons in Bosnia and Herzegovina", while also mapping responses to hate speech in the country.

Incidents reported by civil society

For 2024, ODIHR received reports of hate incidents in Bosnia and Herzegovina from the following civil society organizations:

- Balkan Investigative Reporting Network in Bosnia and Herzegovina (BIRN BiH)
- Center for Education and Research (Nahla)
- European Association of Jehovah's Witnesses
- Sarajevo Open Center (SOC)

To learn more about these organizations, visit the [Contributors](#) page.

In addition, the OSCE Mission to Bosnia and Herzegovina reported hate incidents based on its ongoing monitoring.

All incidents submitted by the above organizations have been analysed by ODIHR. Those that were broadly considered to be hate crimes within the OSCE definition (criminal offence committed with a bias motive) are listed in the tables below according to the bias motivation category. Some incidents involved multiple biases and may be listed in multiple categories.

ODIHR's insights

For 2024, ODIHR received reports of 88 incidents that took place in Bosnia and Herzegovina in the following bias motivation categories: anti-Christian, anti-LGBTI, anti-Muslim, and racist and xenophobic. In addition, several incidents involved multiple bias motivations, including racist and xenophobic and anti-Christian, and racist and xenophobic and anti-Muslim.

ODIHR observes that the anti-Christian incidents reported mostly involved damage to cemeteries or memorial sites. Most of the anti-LGBTI incidents reported targeted gay men. In several of these incidents, victims were threatened and blackmailed via a dating app, and in other incidents the perpetrators were members of the victim's family or the incidents took place in a school setting. Of the racist and xenophobic incidents reported, around half were incidents of damage to property targeting individuals and their businesses or homes. Several incidents of xenophobic vandalism and graffiti in public places were also noted. Other racist incidents involved physical attacks targeting those of a different ethnicity to the perpetrator. In many cases, racist incidents also intersected with anti-Christian or anti-Muslim bias.

It should be noted that ODIHR did not receive any reporting relating to anti-Roma, anti-Semitic, other religion or belief, gender-based or disability hate incidents in Bosnia and Herzegovina. This indicates potential gaps in the information reported here.

Please note that incidents reported here are based on voluntary civil society submissions and as such might not reflect the actual number of incidents or the most targeted communities in Bosnia and Herzegovina.

To address under-reporting, ODIHR encourages any civil society organizations or groups that monitor hate incidents to report these to ODIHR at hatecrimereport@odihr.pl.
