ODIHR's Key Observation

ODIHR observes that the Czech Republic has not reported on cases of hate crimes separately from cases of hate speech or discrimination.

Official Data

The authorities monitored and reported on 179 "offences with extremist context" – a category that includes criminal forms of intolerance other than hate crimes. While the numbers presented here only represent hate crimes according to the OSCE definition, the breakdown by bias motivation below is based on these "extremist offences". The reported number of prosecuted hate crimes represents the number of people charged. The sentencing figure represents the number of people convicted, some of whom may have committed more than one hate crime.
