1 2019

Summary

The Czech Republic regularly reports hate crime data to ODIHR. Hate crime data are published annually in the government's Report on "Extremism and Prejudicial Hatred". The Czech Republic implements its "Strategy for Combating Extremism and Prejudice-Motivated Hatred, 2021–2026" through two-yearly Action Plans on Combating Extremism and Prejudicial Hatred, including an Action Plan covering 2025-2026 (available online in Czech). The Actions Plans are developed in close co-operation with civil society.

The Czech Republic has been implementing ODIHR's Prosecutors and Hate Crime Training (PAHCT) programme since 2020.

ODIHR's Key Observation

ODIHR observes that the Czech Republic has not reported on cases of hate crimes separately from cases of hate speech or discrimination.

Official Data

The authorities monitored and reported on 170 "offences with extremist context", a category that includes criminal forms of intolerance other than hate crimes. While the numbers presented here only represent hate crimes according to the OSCE definition, the breakdown by bias motivation below is based on these "extremist offences". The reported number of prosecuted hate crimes represents the number of people charged. The sentencing figure represents the number of people convicted, some of whom may have committed more than one hate crime.

Year	Hate crimes recorded by police	Prosecuted	Sentenced
2019	42	39	50

Police data by bias motivation
120
Unspecified
36
Anti-Roma
15
Anti-Semitic
8
Anti-Muslim

Police data by type of crime

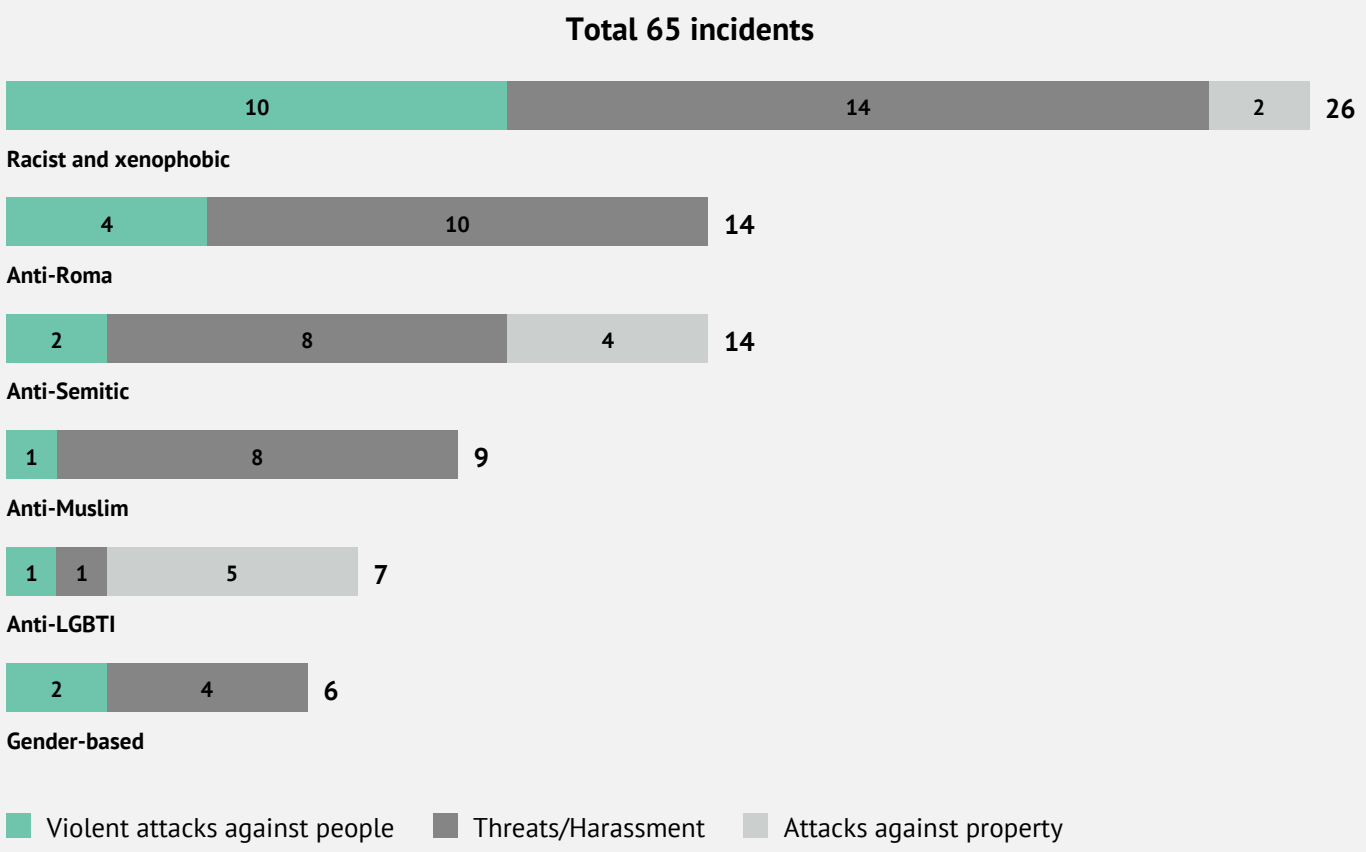

179

Unspecified crime type

National Developments

In April 2019, the Prosecutor General's Office, the Judicial Academy and ODIHR concluded a Memorandum of Understanding on the implementation of the Prosecutors and Hate Crimes Training (PAHCT) programme. According to the agreement, trainers trained by ODIHR will deliver the PAHCT training to prosecutors representing all prosecutorial offices in the country.

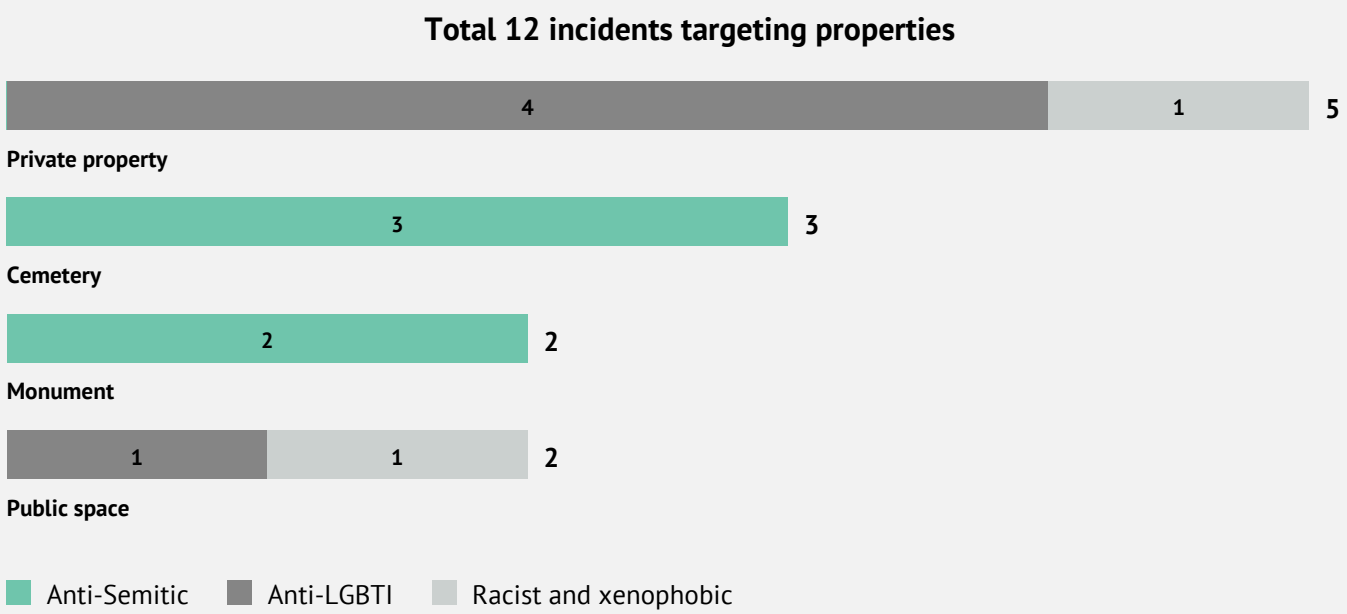

Incidents reported by civil society

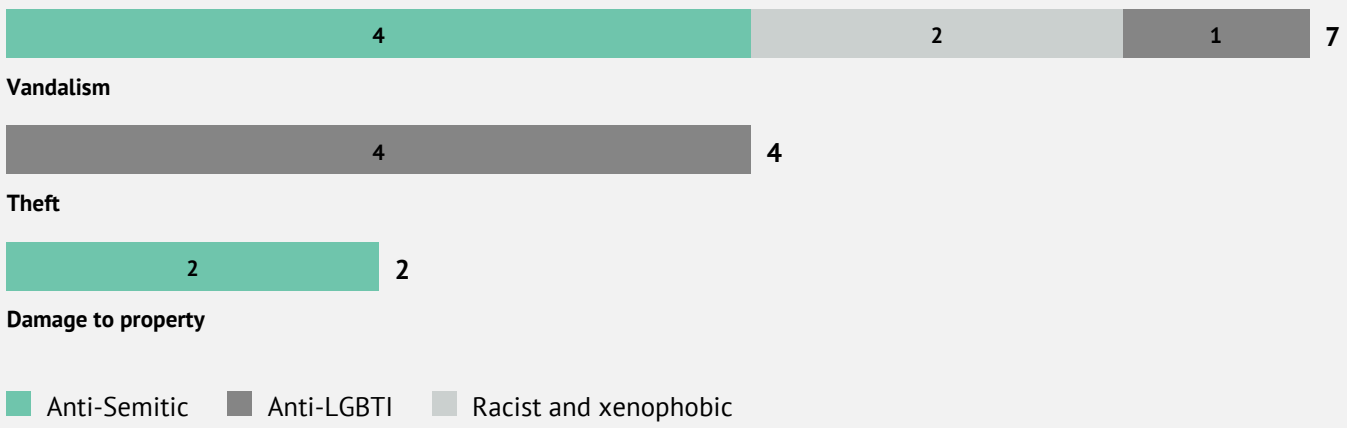

Please note that the total number of incidents may be lower than the sum of incidents presented in the breakdown chart above, as some incidents involve multiple bias motivations.

Kantor Center reported only statistical data. This explains the discrepancy between the graphic above and the incidents included below.
