Summary

The Czech Republic regularly reports hate crime data to ODIHR. Hate crime data are published annually in the government's Report on "Extremism and Prejudicial Hatred". The Czech Republic implements its "Strategy for Combating Extremism and Prejudice-Motivated Hatred, 2021–2026" through two-yearly Action Plans on Combating Extremism and Prejudicial Hatred, including an Action Plan covering 2025-2026 (available online in Czech). The Actions Plans are developed in close co-operation with civil society.
The Czech Republic has been implementing ODIHR's Prosecutors and Hate Crime Training (PAHCT) programme since 2020.

ODIHR's Key Observation

ODIHR recognizes the Czech Republic's efforts to build prosecutors' capacities in addressing hate crimes. However, based on the available information, it observes that the country's mechanisms for recording hate crime data and statistics do not sufficiently distinguish hate crimes from other crimes. In addition, ODIHR observes that the Czech Republic would benefit from raising awareness among and building the capacity of police to respond to hate crimes.

National Developments

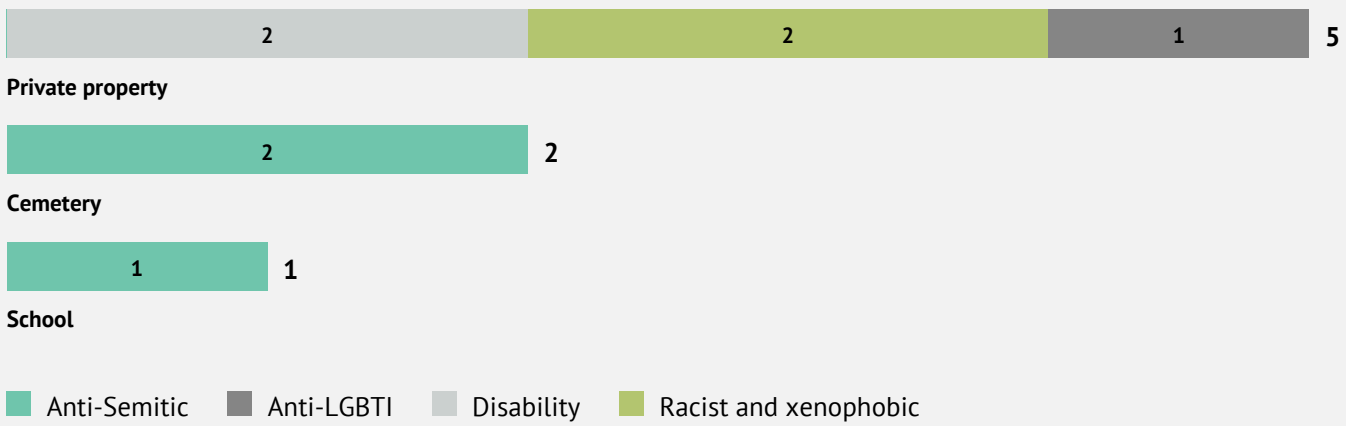

In 2023, prosecutors had the opportunity to participate in educational events on the topic of "hate crime" organized by the Judicial Academy. These events were mainly focused on the topics of pre-trial criminal activity, indicators of pre-trial hatred, the relationship between pre-trial verbal and violent attacks, and measures taken by police when investigating this criminal activity.

Incidents reported by civil society

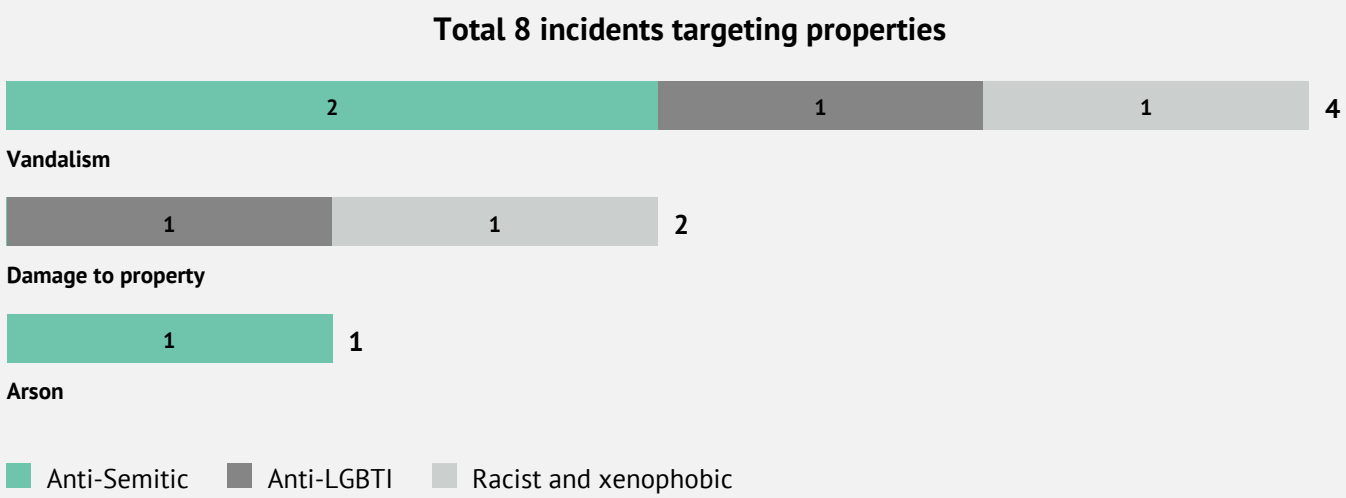

Please note that the total number of incidents may be lower than the sum of incidents presented in the breakdown chart above, as some incidents involve multiple bias motivations.
