Summary

Finland regularly reports hate crime data to ODIHR and has conducted victimization surveys to measure unreported hate crime incidents. The Finnish police closely co-operate with the Finnish Human Rights League, the Finnish Red Cross and Finnish Victim Support to develop a co-ordinated response to combat hate crimes. These organizations, along with the national police and other key authorities, form a network tasked by Finland's Ministry of Justice with monitoring hate crime in Finland and developing effective preventative measures.

In 2017, Finland implemented ODIHR's Training Against Hate Crimes for Law Enforcement (TAHCLE) programme, training over 1,000 police officers. The programme's hate crime modules have since been integrated into pre- and in-service training for police.

ODIHR's Key Observation

ODIHR observes that Finland has not reported information on the numbers of prosecuted hate crime cases to ODIHR.

Official Data

The police also records criminal forms of intolerance other than hate crimes, such as defamation, other hate speech offences and criminal discrimination. These data are reported to ODIHR but are not included in the overall figure or in the breakdown below. Prosecution and sentencing data reported to ODIHR only consist of crimes of ethnic agitation, aggravated ethnic agitation, discrimination, work discrimination and extortionate discrimination, and are not, therefore, included in the overall figure.
