Summary

Finland regularly reports hate crime data to ODIHR. Finland has conducted victimization surveys to measure unreported hate crimes. The Finnish police closely co-operates with the Finnish Human Rights League, the Finnish Red Cross and Finnish Victim Support to develop a co-ordinated response to combat hate crimes. These organizations, along with the national police and other key authorities, form a network tasked by Finland's Ministry of Justice with monitoring hate crimes in Finland and developing adequate measures to prevent such crimes. Finland implemented ODIHR's Training Against Hate Crimes for Law Enforcement (TAHCLE) programme in 2017 and went on to train over 1,000 police officers on hate crimes before integrating the programme's hate crime modules into pre- and in-service training for police.

The authorities have been implementing the National Action Plan on Fundamental and Human Rights for 2017–2019, which includes projects on hate crimes and hate speech.

The **Ministry of the Interior** has designed a new Police Preventive Work Strategy, which sets hate crime as a priority. The **National Police Board** is currently developing an Action Plan to implement the strategy, including measures against hate crime.

The **Ministry of Justice** has continued implementing an EU-funded project, "Against Hate". One of the main objectives of the project is to further develop the national reporting mechanisms, especially regarding statistics on the prosecution and sentencing of hate crime. The project also aims to enhance the capacity of the police, prosecutors and judges to counteract hate crime and hate speech, and to develop support services for victims of hate crime.
