# 1 2017

## Summary

Norway regularly reports hate crime data to ODIHR. In 2021, the Norway Police established a National Expertise Group on Hate Crime. The Group is part of the Oslo Police District and is a reinforcement of the Oslo Police District's Hate Crime Unit. The mandate of the Group is to build the capacities of the regional police districts through training and guidance and, if necessary, to provide assistance in specific cases.

The Attorney General's Annual Circular, which sets out the annual goals and priorities for the police and prosecution services, has consistently included hate crime as a priority area for more than 20 years. This means that hate crime cases, regardless of the severity, are given priority and cannot be dismissed due to capacity or other reasons within police districts.

Support for hate crime victims in Norway
Hate crime capacity building in Norway
Norway's hate crime legislation

## ODIHR's Key Observation

ODIHR observes that Norway has not reported on hate crimes separately from cases of hate speech.

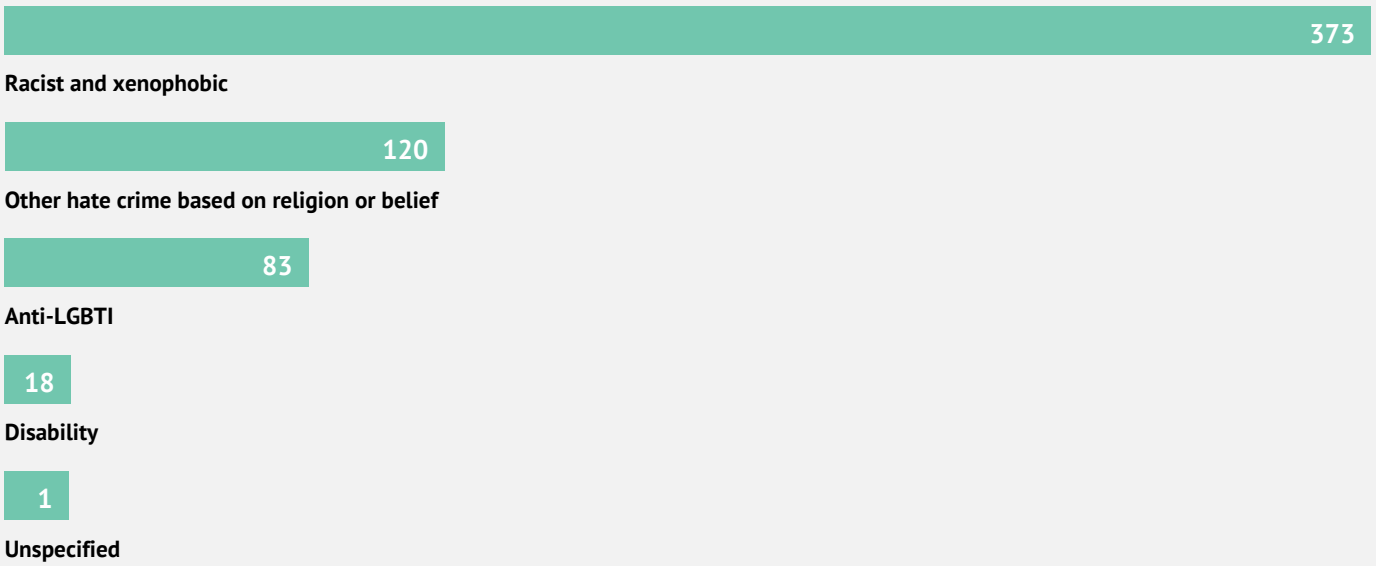

## Official Data

The number presented here refers to police-recorded incidents. The sum of disaggregated figures below adds up to more than the total because crimes can be recorded under more than one bias motivation. Both numbers include hate speech and discrimination incidents, which fall outside of OSCE's definition of hate crimes.

| Year | Hate crimes recorded by police | Prosecuted | Sentenced |
|---|---|---|---|
| 2017 | 549 | not available | not available |

## Police data by bias motivation

While breakdown of the statistics below by type of crime is available, individual bias motivation categories were not reported, hence only the total number for each bias motivation is presented.

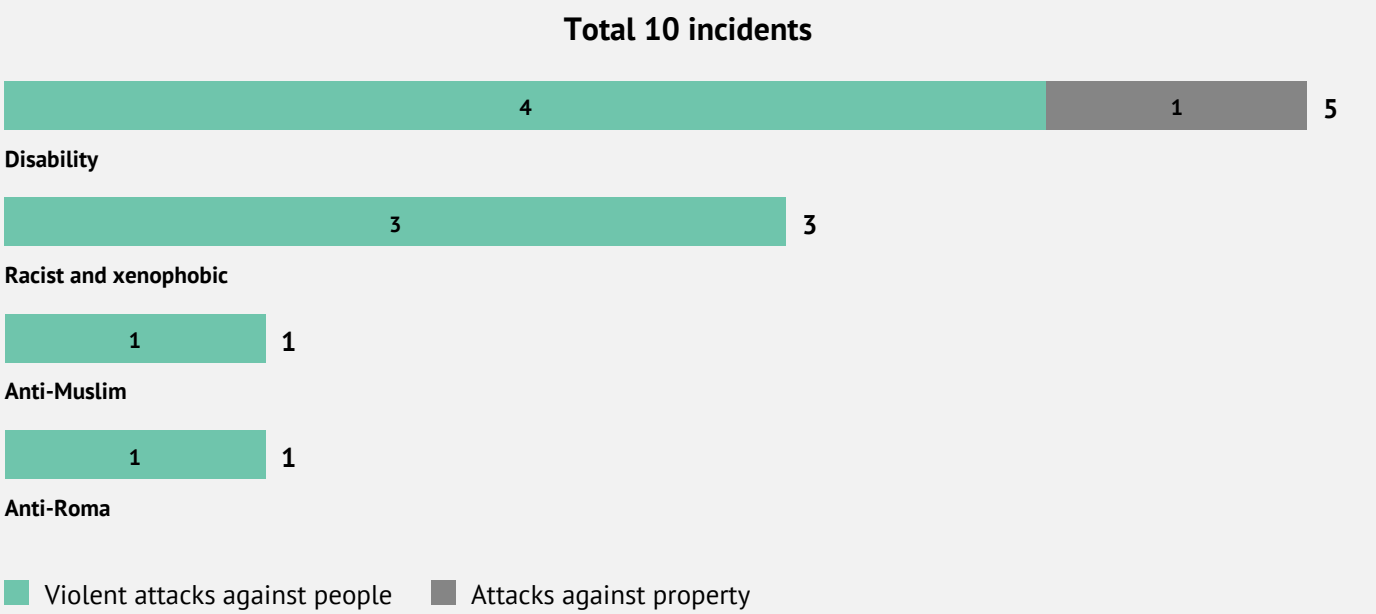

## Police data by type of crime

While breakdown of the statistics below by type of crime is available, individual bias motivation categories were not reported, hence only the total number for each bias motivation is presented.

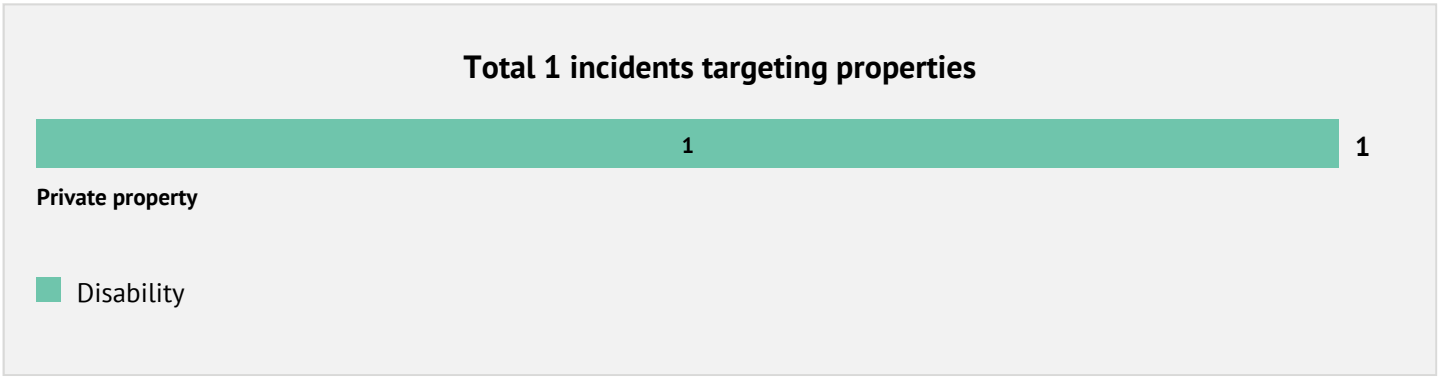

**Unspecified crime type**

## Incidents reported by civil society

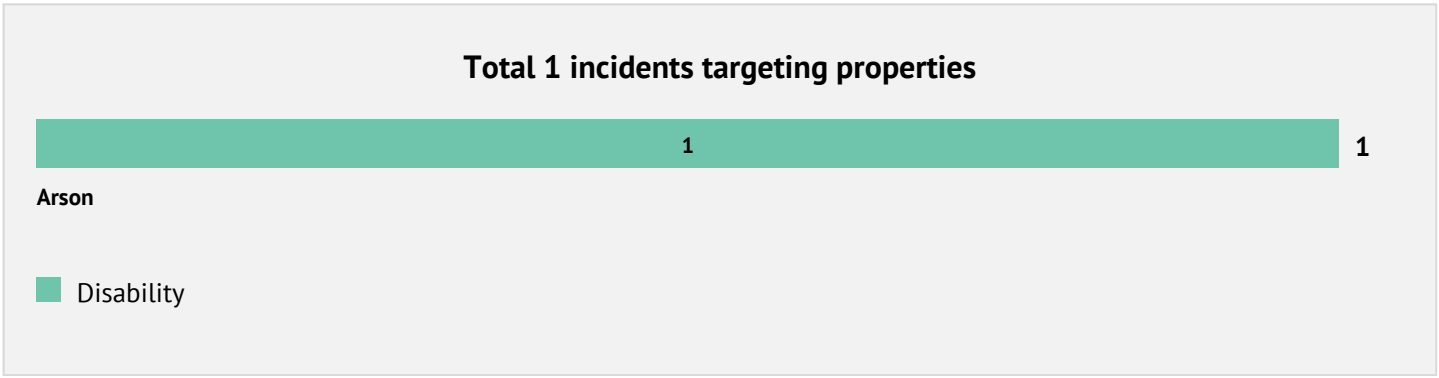

Please note that the total number of incidents may be lower than the sum of incidents presented in the breakdown chart above, as some incidents involve multiple bias motivations.

## Targeted properties

## Type of property attack
